Feedback Analysis & Action Plan- (2018-19)

Every year we collect the feedback from all the students and analyze them for increased student engagement, motivation, and academic success. Till date all students had given positive feedback about the faculty and there is no such complaint and issue of the students.

We try to do the best from our side by using simpler language, hold regular question and answer sessions, encourage a positive and inclusive classroom environment, always monitor them and take updates on each topic. It's reducing the fear of study.
